

LIVEVOX

Cloud IVR Bundle Electronic Press Kit

Stuck.

That's how many contact centers feel right now.

Stuck with a legacy phone system that lacks the capabilities customers demand.

Stuck managing an understaffed, overwhelmed operation.

Stuck without the resources to develop a custom, cloud-based solution.

But what if there was another way? A way to keep your existing system and agents in place.

What if it was easy to add the features to create the ideal customer journey?

And what if you could do it all in a low-code, no-code platform?

Now you can. Introducing Cloud IVR from LiveVox.

An industry-leading package of cloud-based solutions.

Purpose-built to amplify the power of your current ACD or PBX.

It's your bridge to the cloud—that lets you move at your own pace.

Easy to implement and even easier to integrate.

Giving your customers the ability to serve themselves like never before.

Equipping your agents to handle more meaningful interactions than ever before.

And bringing your contact center to the next level through an AI-powered platform.

LiveVox's Cloud IVR is designed with features to enhance and modernize your operations.

(We begin to showcase Cloud IVR's interface using a mix of motion graphics and supergraphics.)

Features that enable customers to communicate on their channels of choice

- including SMS and email.

SUPER: VOICE
SMS TRIGGERS
EMAIL TRIGGERS
CHATBOTS

To self-service and make payments without agents —with seamless handoffs from the IVR to other systems.

SUPER: MANAGED IVR
 PAYMENT IVR

To have entire conversations and resolve issues without agents - where you can bring your own bot or use our pre-integrated options.

SUPER: VIRTUAL AGENTS
 NATURAL LANGUAGE PROCESSING

It's all right here.

A full 360-degree view of your customers , plus advanced performance analytics.

SUPER: CUSTOMER DATA & CONTACT HISTORY
 DATA ANALYTICS

Complete with access to a host of APIs and always-on support.

SUPER: ACCESS TO LIVEVOX PUBLIC APIs
 24/7 MONITORING & SUPPORT
 PROACTIVE OPTIMIZATION

Don't start over from scratch to get the cloud-based capabilities you need. Get started with LiveVox's Cloud IVR today.

Frame 1

Introduce the problem. The camera focuses on the outdated call center UI and headset, making the issue clear.

VO

*Stuck.
That's how many contact centers feel right now.*

Frame 2

The camera zooms out from the pod, showing the entirety of the dull, grey call center.

VO

Stuck with a legacy phone system that lacks the capabilities customers demand.

Frame 3

Zoom out of the call center. The call center is revealed as a 3D object, stuck in a dark, endless room.

VO

Stuck without the resources to develop a custom, cloud-based solution.

Frame 4

The 3D call center object aligns itself to integrate with the IVR bundle overlay. IVR is slightly glowing blue light underneath itself.

VO

But what if there was another way? A way to keep your existing system and agents in place.

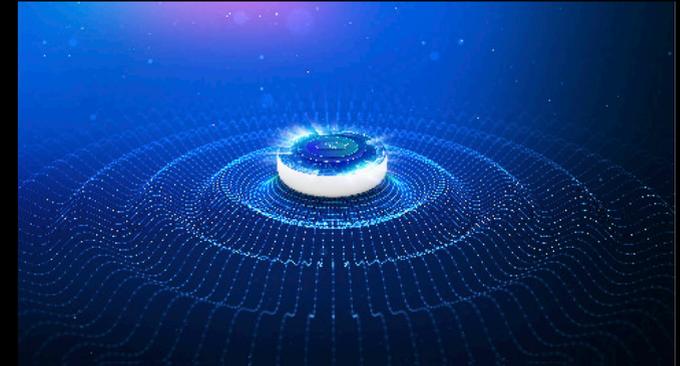

Frame 5

The bundle overlay successfully integrates with the dull call center and the room is illuminated with bright circuitry, using LV branded colors.

VO

Now you can. Introducing Cloud IVR from LiveVox. An industry-leading package of cloud-based solutions.

Frame 6

Example of visually reinforcing keywords. Additionally serves as a transition to lifestyle imagery.

VO

Purpose-built to amplify the power of your current ACD or PBX.

Frame 7

Transition to lifestyle imagery. User begins to interact with the product.

VO

It's your bridge to the cloud—that lets you move at your own pace.

Frame 8

Showcase UI from the customer side, communicating a simple and seamless customer experience.

VO

Giving your customers the ability to serve themselves like never before.

Frame 9

Zoom into the UI-HUD. Transition into the product demo.

VO

Equipping your agents to handle more meaningful interactions than ever before.

Frame 10

Showcase the product demo. Visual layering and grid represents the enhancement of the customer's business, not the replacement of it.

VO

LiveVox's Cloud IVR is designed with features to enhance and modernize your operations

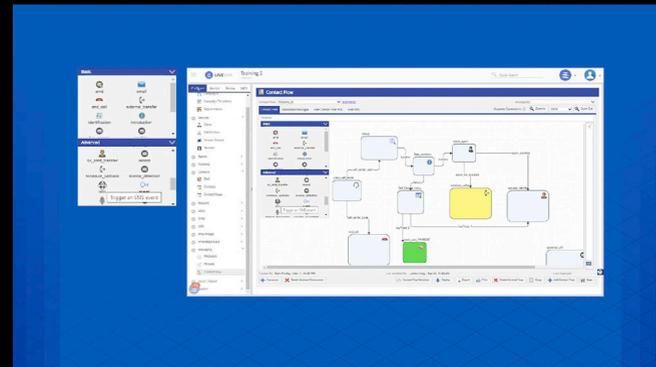

Frame 11

Product demo animation example.
